About CGM

A second generation company, Carolina Greenscape Management has served the upstate since Bill Queen started the original Carolina Grounds in 1982. A lot has changed in thirty three years, but Carolina Greenscape Management continues to offer quality, cost efficient landscaping services for businesses across the south.

We pride ourselves in superb and consistent grounds care with responsive service, no matter the situation.

Our Mission:

To provide our customers with superb and consistent grounds care; with responsive service, no matter the situation.

Our Vision:

To become the most well-respected, sought after commercial grounds maintenance and landscaping company in the Carolinas.

Who We Are

Carolina Greenscape Management is a locally-owned, family business located in Simpsonville, SC. Started in 2012 by siblings, Michael Queen and Sandra DuBose, who, combined with their father Bill, have over 80 years of experience in the green industry. Carolina Greenscape now services over 300 commercial landscaping accounts all over South Carolina, North Carolina, and Georgia.

Specializing in full service landscaping, Carolina Greenscape

Management also excels at landscape and irrigation design, installation and repair, hardscapes, and maintenance.

Our list of clients is as diversified as our knowledge base, servicing many major bank chains in our area, as well as many businesses and restaurants throughout the southeast. Chances are, if you've stopped for a bite to eat, or just to grab some cash from your local ATM, you've seen our work.

Our Clientele

Our Typical Maintenance Contract Includes:

- **Mowing weekly to every 10 days for neat appearance and proper growth**
- **Weed eating around trees, beds, and curbs at time of mowing**
- **Edging along walks and curbs**
- **Weeding of beds either manually or chemically for neat appearance**
- **Major pruning of shrubs in the fall**
- **Shaping of shrubs to maintain neat appearance and proper growth**
- **Blowing off walks, drives, curbs, etc.**
- **Weed control of turf in the spring**
- **Fertilization of turf in the fall and twice in the spring**
- **Shrubs to be fertilized as prescribed for each variety**
- **Leaf control in the fall**
- **Insect and disease control**
- **Mulching of beds once per year in the spring**
- **Bedding plants added in or changed out at customers request**
- **Bi-annual irrigation start up and shut down**
- **Flexible contract terms**

We also Offer:

Grounds Maintenance

- Mowing
- Edging
- Weed Eating
- Blowing Down Walks, Drives, Patios, etc.
- Shaping and Pruning of Shrubs
- Mulching
- Fertilization Program
- Aeration and Over-Seeding

Seasonal Bedding Plants

Design, Installation, and Maintenance Included. Plants are installed in the Spring and Fall every year in either large areas for that big impact or smaller areas as just an accent.

We offer a wide range of different plant materials for varying heights and continuous blooming throughout the season.

Snow and Ice Removal

We might be in the south, but winter is coming, and it can sneak up on us when we least expect it. Turn to us for all of your winter weather needs from applying ice melt to shoveling and plowing.

We utilize ice melt that is carpet, pet, and of course environmentally friendly. We can set up a program to fit any residential or commercial need.

Landscaping

We design in-house. We can work from the ground up, or we can design something to fit within your existing landscape. We can create a yard you can vacation in with minimum up-keep. Individual landscaping services are also available, including:

- Tree and Shrub Installation
- Seeding or Sodding
- Grading

Irrigation

We Design, Install, and Repair. We can use water from a pond or use your municipal source. Get water to your entire yard or just a small garden area. Never worry about the weather with weather stations and temperature controls.

Although we can work with any brand for repair, when installing we use products from Rainbird, Hunter, and Weathermatic.

Hardscapes

We don't just like playing with plants! We love designing and building with wood, rock, and brick too!

Add retaining walls, gazebos, walking paths, patios, fire pits, etc for entertaining or to just accent that great looking yard you already have.

Maybe you'd like to add the tranquility of a water feature? We can design and install the pond, stream, waterfall, or all of the above to fit your needs.
